Section 4. First Aid Measures

Eyes:	Flush eyes with water as a precaution.
Skin Contact:	Wash off with soap and plenty of water. Consult a physician.
Inhalation:	If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.
Ingestion in excess:	Do NOT induce vomiting. Rinse mouth with water. Never give anything by mouth to an unconscious person. Consult a physician.
Emergency Care:	Contact local emergency provider. For non-emergency, contact primary care provider.
PPE:	Gloves, lab coat or uniform, safety glasses, eyewash, safety shower.

Section 5. Fire-Fighting Measures

Flammability:	Flammable.
Extinguishing Media:	SUITABLE: CO ₂ , foam, dry chemical. NON SUITABLE: Water.
Special Fire-Fighting Procedure:	Do not allow firefighting water to enter drains or water courses. Fight fire with normal precautions from a reasonable distance. Wear self-contained breathing apparatus. Cool all affected containers with flooding quantities of water.
Unusual Fire and Explosion Hazards:	Essential and vegetable oils have the potential to self-heat and contribute to spontaneous combustion when present on fabrics. Caution should be exercised in the storage and launder of fabrics exposed to oils. Nature of decomposition products not known.
PPE and Precautions for Firefighters:	May produce toxic fumes of carbon monoxide if burning. Wear self-contained breathing apparatus for firefighting if necessary.

Section 6. Accidental Release Measures

Personal Precautions:	Use personal protective equipment. Avoid all contact with eyes and mucous membranes by wearing goggles, protective

clothing, vapor respirator, boots and gloves. Ensure adequate ventilation or wear respirator.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Keep away from drains, surface and ground water. Retain contaminated washing water and dispose it. Explosive properties.

Containment: Absorb with clay, sand, or other non-combustible material. Prevent entry into waterways, sewers, and confined areas.

Clean Up: Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations. Place in appropriate containers for disposal. Ventilate affected area.

Section 7. Handling and Storage

Handling Precautions: Keep away from sources of ignition - No smoking. Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Take precautionary measures against static discharge. Wash hands before breaks and after work. Keep away from food, drink and animals. When using do not smoke.

Storage Precautions: Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Other: See Section 8

Section 8. Exposure Controls/Personal Protection

Engineering Controls: Technical measures and the application of suitable work processes have priority over personal protection equipment.

Respiratory Protection: Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH.

Hand Protection: Handle with gloves. Wash and dry hands after use.

Eye Protection: Face shield and safety glasses. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH.

Skin and Body Protection: Clothes for chemical protection to avoid contact.

Ingestion: Do not eat, drink and smoke while using.

Industrial Hygiene: Provide ventilation of the work place to reduce concentrations of the vapor and product. Use good industrial hygiene practices.
